

LED Medical Film Viewer

Single LC-100H/D

Three Model:

- Un-adjustable
- Digital Dimming
- Digital Dimming & Sensing

Characteristic :

- LED light source, nominal 50,000 hours lifetime
- High Luminance : 4,500 Cd/m²
- Perfect light uniformity, thanks to Germany light panel
- LCD technology have been applied
- Viewing Screen: single bank, 14"×17"
- Digital system, easy to operate and high reliability
- Aluminum case, light but robust
- European Union CE certification

Digital operate panel

Specification:

Model	LC-100H/D
Product size(mm)	537×495×25
View size(mm)	370×422
Light source	LED 2 lamps
Temperature	Over 10000K
Power consumption	25W
Power	85-264V 47-63Hz
Weight	5.0kg
Brightness	H: 3500cd/m ² D: 300-4500cd/m ²
Notice	H: unadjustable D: microcomputer digital induction damming and divisional control each section as well
